Description

Protect service delivery. Safeguard records. Maintain compliance.

HCP 501 is a healthcare exam prep course that moves at a fast pace.

If you're an experienced continuity professional in the healthcare space and you're in a hurry to take your career to the next level, Healthcare Continuity Review (HCP 501) is for you. This short, yet highly effective, refresher course will re-acquaint you with the key elements of business continuity and is based on the recently revamped DRI Professional Practices for Business Continuity Management the most utilized and time tested standard in the field. Along with the Professional Practices, you will learn business continuity best practices for the healthcare field, with a curriculum that reflects the NFPA 1600, Joint Commission, HIPAA, and other vital laws, regulations, and standards.

Additionally, the course as well as the revamped supporting material provided to every student is designed to give you all the tools you need to pass the Healthcare Examination and continue on the path toward becoming a DRI Certified Healthcare Provider Continuity Professional (CHPCP) or Associate Healthcare Provider Continuity Professional (AHPCP).

Objective

1. Review The Professional Practices for Business Continuity Management body of knowledge designed to assist in the development, implementation, and maintenance of business continuity programs
2. Highlight the terms and methodologies presented in the International Glossary for Resilience and the Professional Practices.
3. Prepare you for the Healthcare Examination, in which you receive 16 credit hours for the course

Outline

Lesson 1: Program Initiation and Management

- Establish the need for a business continuity program

For more information, visit drii.org.

- Obtain support and funding for the business continuity program
- Build the organizational framework to support the business continuity program
- Introduce key concepts, such as program management, risk awareness, identification of critical functions/processes, recovery strategies, training and awareness, and exercising/testing

Lesson 2: Risk Assessment

- Identify risks that can adversely affect an entity's resources or image
- Assess risks to determine the potential impacts to the entity, enabling the entity to determine the most effective use of resources to reduce these potential impacts

Lesson 3: Business Impact Analysis

- Identify and prioritize the entity's functions and processes in order to ascertain which ones will have the greatest impact should they not be available
- Assess the resources required to support the business impact analysis process
- Analyze the findings to ascertain any gaps between the entity's requirements and its ability to deliver those requirements

Lesson 4: Business Continuity Strategies

- Select cost-effective strategies to reduce deficiencies as identified during the risk assessment and business impact analysis (BIA) processes

Lesson 5: Emergency Preparedness and Response

- Develop and assist with the implementation of an incident management system that defines organizational roles, lines of authority and succession of authority
- Define requirements to develop and implement the entity's incident response plan
- Ensure that incident response is coordinated with outside organizations in a timely and effective manner when appropriate

Lesson 6: Business Continuity Plan Development and Implementation

- Document plans to be used during incident and which will enable the entity to continue to function during an incident that requires utilizing the business continuity process

Lesson 7: Awareness and Training Programs

- Establish and maintain training and awareness programs that result in personnel being able to respond to incidents in a calm and efficient manner

Lesson 8: Plan Exercise, Audit and Maintenance

- Establish an exercise, maintenance, and assessment program to maintain a state of readiness

Lesson 9: Crisis Communications

For more information, visit drii.org.

- Provide a framework for developing a crisis communications plan
- Ensure that the crisis communications plan will provide for timely, effective communication with internal and external parties

Lesson 10: Coordination with External Agencies

- Establish policies and procedures to coordinate incident response activities with public entities
